A separate license application is required for each body of water defined in this section as fishing preserve waters. Two (2) or more ponds under one (1) ownership, supplied by one (1) common water source and located on one (1) continuous parcel of land, shall be considered as one (1) body of water requiring one (1) license. It shall be a violation of this regulation for the fishing preserve licensee to stock and/or maintain any species of fish not listed on the license application approved by the Department.

Applicant agrees that introduction of unauthorized fish species may require removal of said species or complete depopulation of fishing preserve waters within a time frame and by a method determined by the Department in accordance with Chapter 50 of Game and Fish Commission regulations.
