An emergency rule for Chapter 65, Regulation to Adopt Wyoming’s Gray Wolf Management Plan and Addendum was filed with the Secretary of State on September 24, 2014. Since emergency rules are no longer in effect one hundred twenty (120) days after filing with the Secretary of State, this emergency rule will expire on January 23, 2015. A second emergency rule is necessary to continue implementing the state’s gray wolf management plan while the Commission considers promulgation of a final rule through the regular rule making process.

There are no proposed changes from the emergency rule filed on September 24, 2014, with the exception of the signature date.
