

APPENDIX I

Partners And Major Stakeholders In The Wyoming CWCS

From the beginning of the CWCS effort, the WGFD realized a successful and meaningful document would require input from a wide variety of interests. As Wyoming's CWCS was being developed, many agencies, groups, organizations and individuals were contacted to solicit their assistance. Some, which are referred to as partners, provided data in the creation of the CWCS. Others, which are referred to as Major Stakeholders, provided no data but contributed to the development of the CWCS in other ways. The following lists identify Partners and Major Stakeholders. It should be noted that many organizations were represented by multiple individuals. These lists are not meant to identify each person that was involved with the CWCS, but rather indicate the range of potential cooperators.)
